

Attendees:

Freud Park, Roy Mendelssohn, Steven Anthony, Jon Burroughs, John Ullmer, Ted Habermann, Dave McGuirk, Julie Bosch, Steve Hankin, Russ Rew, Peter Grimm, Eric Kihn, Richard Kang, Ken McDonald

- Most of the telecon was devoted to discussion of the actions of the DMC telecon to direct the DMIT to focus on the standards process and to direct the DMIA and the Enterprise Architect to consider the formation of a new team to address the architecture issue raised by the DAARWG.
  - ◆ Discussed whether actions could be addressed within the context and structure of the existing DMIT.
  - ◆ K. McDonald took action to draft response to DMC (see attached w/ input from S. Hankin)
  - ◆ DMIT has action to review and comment to K. McD (by COB 10/09 please).
- Noted that the recent FY 10 Fiscal and Programming Guidance ? Serial 4 issued by PA&E included Data Management guidance stating:
  - ◆ ?Program plans need to ensure that any proposed data management systems are consistent with the Global Earth Observing Integrated Data Environment (GEO-IDE) plan.?
- Briefly discussed status of OPeNDAP direction from NESDIS OCIO.
  - ◆ System managers are allowed to redeploy Version 4 OPeNDAP servers that addressed the recent vulnerability issue.
  - ◆ Discussion of how OCIO can better work with OPeNDAP community ? problems generally not with protocol but with implementations of which there are many.
  - ◆ NESDIS CIO does intend to discuss possible approaches with OPeNDAP Inc.
